

THE HAMLIN HERALD

IN 33RD YEAR—EVERY WEEK SINCE 1905

HAMLIN, JONES COUNTY, TEXAS,

FRIDAY, OCTOBER 14, 1938

NUMBER 50

JONES CO. COTTON GINNING REPORT

According to the official census report of the amount of cotton ginned in Jones County, prior to October 1, there were 17,436 bales as compared with 20,583 for same date in 1937.

This means that the crop is falling short by 3147 bales under October 1, 1937. This would indicate that the crop will end up with a great reduction below last year.

Late rains will do no good this fall, even to the unopened bolls. The absence of rain, since about July 24, played havoc with the crop. Dry weather, and army worms, boll worms, and weevils joined in cutting down the 1938 yield.

HOW JONES COUNTY GINNED IN THE PAST YEARS

YEAR	BALES
1937	67,807
1936	36,640
1935	61,728
1934	23,493
1933	88,443
1932	107,309
1931	47,629

What will the answer be for this 1938 year?

METHODIST CHOR

A splendid group met at the Church Wednesday night after prayer meeting for the purpose of re-organizing the choir.

The following officers were elected. Mrs. Turner Beard, president; Mrs. Hackley, secretary; Mr. Ed Bailey, director; Miss Edwina Gilbert is to be accompanist.

Following the election, we went into the practice of the special number for Sunday morning.

—Secretary.

BAND CONCERT

The Hamlin Band under their leader, G. C. Collum will give a thirty minute Free Concert, on Post Office Street, Saturday, October 15th, beginning promptly at 3:30.

Mrs. George Bender who has been visiting in the home of her son, Mr. and Mrs. Newman Bender in San Bernardino California most of the summer, arrived Friday to see "homefolks" in Hamlin, and after all there is no place like home.

The Herald Anywhere 1 Yr. \$1.00

IMPROVEMENTS

Most all newspapers have an eye open for improvements in their community—maybe it is expected that the paper take the lead in boosting what is what in the community, but after all it is no more the job of the paper than any other citizen . . . but lets get down to boosting those who TRY . . . and it is the 'try' that counts.

In rambling about, peeking here and there, looking for some kind of gossip, or maybe a renewal subscription, or a new reader, yes and maybe presenting our facilities for helping some merchant to say his say to his community for more business, we notice lots of things and HEAR plenty . . . some of it can be published, part of it can not. So here goes:

NEW SERVICE STATION

Just across the street from the Herald office there is a busy bunch of workmen laying brick and tile on the Holman Service building, to be occupied by the Magnolia Co. in a few weeks. This is an improvement over the old wooden-iron buildings of thirty years standing. This corner is to be a companion improvement to the Herald property and to all adjoining property . . . it is hard for one man to make an improvement without helping somebody else, or encouraging another person to primp up a bit.

Down the street farther, the McMahaons have just finished dolling up their front, making a neat attractive jewelry display entrance. This improvement is in line with others in that block, and everyone merits congratulations.

FOUR NEW WAREHOUSES

Among the improvements for handling cotton, Hamlin this season has gained four new cotton warehouses. Some time ago we told about the Cotton Compress building a warehouse 80 by 400 feet, and if you will ramble about a little you will see that T. E. Harden has built his third cotton house and has the ground covered with bales ready for storage.

Back in East Hamlin you will notice that Fed H. Britton has a new warehouse completed and being filled with cotton, so the same is to be said about R. S. Johnson. Over that way cotton warehouses are so thick, weeds and mesquite can not grow.

East Hamlin has a new, but small tiled-stuccoed grocery house just across the highway from the Panhandle Station. This is a Ben Wilcox enterprise and gives that immediate community reach to groceries and cold drinks. Also this week, we notice the Fed H. Britton Gin

COTTON MEETING CALLED SATURDAY

All cotton farmers of Jones county are ask to attend a county-wide meeting at Anson, Saturday, Oct. 15th, for the purpose of organizing an independent county-wide farmers association to aid the farmer in getting his rights under the present cotton farm program. Two sectional meetings have already been held at Tuxedo and Plainview school houses and both meetings were well attended. J. C. Harwell and E. E. Link have been elected temporary chairman and secretary, respectively of the tentative county-wide organization.

The meeting will be called to order at 2:30 o'clock, Saturday afternoon in the District Court room at Anson. One of the main problems too be ironed out at this meeting will be the matter of cotton marketing quota allotments, how these allotments were arrived at, whether they are fair or not, and if not fair and suitable to an individual farmer how he may get a redress of his grievances by having his marketing quota allotment adjusted.

Sponsors of the meeting state that holders of white marketing cards as well as farmers holding red marketing cards should attend the meeting, since the matter of the cotton payment of 2.4 cents a pound to be made in connection with the 1938 agricultural conservation program will be discussed. As farmers generally understand the set-up now, the 2.4 cents a pound payment is to be made on the same yield per acre basis as the marketing quota allotment. If this view is correct, sponsors of the meeting state that many farmers are entitled to an adjustment on their yield per acre allotment for the reason that the county committee in making out the marketing quota allotments did not, in many instances, take into consideration the plow-up campaign in 1933 and figured the yield per acre for 1933 on planted acres instead of on harvested acres.

J. C. Harwell of Tuxedo, formerly chairman of the county committee, will be in charge of the meeting. A committee of three composed of J. C. Harwell, Jim McCullough and Judge Otis Miller was selected by the Tuxedo meeting to confer with the county committee and see what could be done about making individual adjustments where yields per acre were out of line. This committee has met with the county committee

office being improved, roomy cotton customers annex is being built that will accomodate cotton men and customers without mixing conversation with the bookkeeping dept.

A GOOD OCTOBER RAIN FELL MONDAY

Last week the Herald and a lot of post posters announced that Harley Sadler was to be in Hamlin, Monday and Tuesday . . . right away everybody who can put two and two side by side and call it either 22 or 4, knew that rain was near at hand . . . it fell before Harley could get into town . . . remember the sign.

Rain started falling about 3 a. m. Monday and continued on up till nearly noon. In all we got about one full inch. What a relief too. Dust and general dryness had become fierce . . . no turnips had come up, not a grain of wheat was sprouted, but nearly all the cotton had popped open and was drawing near the end of picking, snapping, snatching, gathering . . . and that nice rain came and gave relief.

Grass has freshened up and the fall tinge of colors are becoming prominent. Fall flowers are going to be better, and nearly every old human steps with a new vigor. Yep, a little ole shower certainly does put a lot of spizerinkum into West Texas guys. Let'er rain, maybe we can make so much wheat next year that we all will starve to death for biscuits, or maybe fix the weather so that the pesky boll weevil will get a cold reception and twist up their sticking toes and die before the next cotton crop gets where they can hatch on it. Just in about three weeks more or maybe one or two weeks or days another such rain might come and put the fixin's on everything and all anybody need to do then would be to curl up and hibernate for the whole winter. Poor humans, they can't do that like a boll weevil, or maybe a bear or something.

and will make a report to the meeting Saturday. This committee was also instructed to confer with county committees of adjoining counties and ascertain how their marketing quota allotments were arrived at, what administrative costs run in these counties, and other important matters relative to the cotton program and to report same to the Saturday meeting. It is felt by those sponsoring the meeting that every cotton farmer in Jones county should attend the Anson meeting.

—The Committee.

DOCK HUMPHREY KILLED IN CRASH

A. H. (Dock) Humphrey, a former Hamlin citizen was killed instantly in an automobile head-on collision Monday night about 7:30, three miles east of his Seagraves, Texas home, on the loop highway.

The other car in the crash was driven by two young ladies, the Connell sisters, ages 17 and 19. The women were only slightly hurt principally from shock. They were driving a 38 Chevrolet while Humphrey was driving a Cadillac Sedan. Both cars were a complete wreck.

The Humphrey family had formerly resided in Hamlin for about thirteen years and they had many friends here. Mr. Humphrey was a mechanic by trade and operated his shop across from the Herald office a long time, and at the time the Ferguson buildings were destroyed by fire he had a shop there. He had lived in Seagraves since February of this year.

Mrs. Humphrey was visiting friends in Hamlin when the death of her husband occurred.

Dock Humphrey was born in Brunson, Texas, February 16, 1893. He was united in marriage to Viola Holly at Aspermont, Texas in 1909. To this union there were three sons, J. E., age 27, Ray, age 18 and Bobbie, who met his death by a truck in Hamlin at the age of 5 years and 8 months.

Mr. Humphrey had one sister, Mrs. Jess Holly of Lubbock and a step-mother, Mrs. R. U. Humphrey of Lamesa.

The body was conveyed to Hamlin by a Seagraves undertaker and here the Barrow Company took charge and interment was in East Cemetery by the side of the little son.

Funeral services were conducted

Churches and Church Activities

Haskell Fair Boosters Coming Friday Morning

Ralph Duncan, secretary of the Haskell Chamber of Commerce was in our city, Tuesday evening and announced that a group of their citizens would be in Hamlin, Friday morning at 11:15 a. m., advertising their annual Fair, which starts the 19 and continues to 22. This group is making several towns on this date, and they are putting on an interesting program.

FT. WORTH BOOSTERS ENTERTAINED

The following named, J. E. Moody Tom Teague, Earl Smith, Tate May and W. E. Benson attended a Chuck Wagon feed last Tuesday on the Stamford Reunion grounds, in honor of the Annual Trade Trip of the Fort Worth Trippers. This group was traveling in a special train, and part of the Hamlin group accompanied them to Hamlin, where the train was switched from the Katy tracks to the Santa Fe tracks, the train stopped at the Santa Fe station for 30 minutes and a nice crowd greeted the visitors even at the late hour.

AGRICULTURAL COMMITTEE VISITS FARM

The agricultural committee of which J. S. Inzer is chairman, visited the farm that has been purchased by the F. S. A., for Joe Ford on Rt. 1, and heard this program ex-

at the Church of Christ Wednesday afternoon by Ministers Jackson of McCaulley and Proctor of Hamlin.

Dock Humphrey was a friendly, likeable fellow, an ex-service man, a member of Company C, of the 111th Ammunition Train and served 18 months in France.

As a mark of esteem and sympathy for the bereaved, the Hamlin friends presented a bountiful floral gift.

BAPTIST CHURCH

We were away last Sunday, but will be at the church for both services Sunday.

We have heard good reports every where about the services last Sunday and we are indeed grateful to Bro. Massey for preaching in our absence.

This Sunday morning we will bring a message on State Missions. We urge everyone to be present.

Lets have 300 in Sunday School. We can if we work.

Do not forget the Training Service Sunday evening.

Pray for a good day.

Charles Prater a student in John Tarleton College spent the weekend here with his parents, Mr. and Mrs. C. C. Prater.

Miss Lucille Newsom a student at McMurry College was a weekend visitor with her parents, Mr. and Mrs. W. E. Newsom.

The Herald Anywhere 1 Yr. \$1.00

plained in its entirety. This is a movement put on by this part of the Government Recovery Program, which enables worthy tenant farmers to own their own homes. This committee was well impressed with this program.

HIGHWAY WORK PROGRESSING

Work on the Hamlin-Rotan Highway is progressing nicely, this means several months work for WPA workers in this area. County Commissioner, John C. Turner reports that things are getting in shape for early action on that part of the road in Jones County toward McCaulley which is about 2 and one-half miles.

C. OF C. MEMBERS ATTEND BANQUET AT ROTAN

Harold Bonner and W. L. Fletcher, Jr., attended a banquet in Rotan last Tuesday night and heard a splendid address by Congressman, Clyde L. Garrett.

MAYOR AND CONGRESSMAN

PLANED TO WASHINGTON

At 5:00 p. m. Wednesday, Mayor Joe Culbertson and Congressman Garrett boarded an airplane in Abilene for Washington City to call at the head of the PWA in connection with Hamlin's water project.

Indications are that the government is interested in helping Hamlin in her water struggle, but "The government helps those who help themselves" hence the Mayor and Congressman hopped into a plane to Washington to place Hamlin's claims right down before those who "grant." If anybody needs a grant it seems Hamlin is in line for one—and nothing means as much to Hamlin as water—good luck to you fellows.

AN APPEAL FOR RELIEF

Last May the committee on Relief work, ask Mrs. Bill Rountree to make a canvas for funds to help carry on where we found it necessary to help. She collected \$59.00. In the six months, we have spent the \$59.00. Thirty-six of this was spent on the Owens family. We have tried to use this money sparingly. We must have some more money if we help the ones in direst need. We owe \$16.00 that we spent on a transient that was sick and had only one lower limb. He was a worthy sufferer.

We are asking Mrs. Rountree to make another canvas this coming week, and are asking you to help her when she comes your way.

J. HENRY LITTLETON,
Chairman of Committee

Carroll Benson, teacher and assistant coach in the Merkel schools visited his parents, Mr. and Mrs. W. E. Benson, Saturday and Sunday.

Mrs. W. J. Rucker and sons, Jack and Payne of Temple are making their home in Hamlin now. Mrs. Rucker is the mother of Mrs. Clayton Roberts, nurse at the Hospital.

YOUR TELEPHONE DOES ITS PART AS A CITIZEN OF TEXAS

As one of the industries of Texas, your telephone company pays its share of the cost of government. It is a heavy share, too. In 1937 its local, state, and federal taxes in Texas totaled more than four million dollars . . . nearly \$12,000 a day.

These telephone taxes were equal to more than a third of the company's entire payroll in the state. They amount to \$9.25 for every telephone in service.

Where do they go, these taxes? To build and maintain

the streets and highways over which you drive. To furnish you police and fire protection. To keep up your children's schools. To help pay for all the services government gives you.

The telephone company is part of Texas . . . here to meet this state's need for friendly, dependable telephone service. As part of the state, it has tried to be a good citizen . . . always ready and willing to pay its fair share of the cost of government.

HARDLY BELIEVABLE

So often one reads something or hears something that causes one to catch his breath and say to himself "hardly believable." For example, this week, we read where two Oklahoma College boys entered a cave, dark and dank, waded and waded, yes swam into an unknown lake, finally coming out on a bank with their flash lights lost . . . there they sat for 24 hours, waiting for somebody to rescue them. An anxious father gathered a party and started out . . . entering the cave, yells and cries were sounded, but the college smarties kept quiet so that their rescuers would also wade and swim that dismal lake of

darkness . . . yes they were rescued . . . what a story.

RABBIT EYES may be worth millions in the future. Noticed where a poor fellow had lost his sight and some doctor grafted the cornea of a rabbit into his eye and the man sees, wonderful . . . and more believable than the cave story . . . think of taking the well eyes of a recently dead person and grafting it into the socket of a blind man, hardly believable . . . but he sees.

NO COTTON MATTRESSES?

Sounds like a person out in the briny deep, where there is water, water everywhere and not a drop to drink . . . cotton, cotton everywhere and not a mattress to rest the weary

cotton citizen's head upon . . . hardly to be believed . . . just this week we heard a county relief worker say she had ask the government for 150 cotton mattresses to be scattered over this great cotton county of Jones . . . she got 35 just 35 . . . right now in Jones Co. in cotton warehouses are perhaps 70,000 bales of good cotton from the 1937 crop, and 30,000 bales coming from the new crop, and all around us are suffering men, women and children, without a comfortable cotton mattress to recline their skinny bodies upon . . . that is true, but hardly believable . . . don't get angry if some dictator upbraids this country because we have let it get into such a low-living scale mess . . . we are not using what we have and can get more than we can use . . . there is something mighty dead up the creek. What do YOU know, that is "hardly believable?"

FOR SALE—

Pure Black husk wheat seed, clear of Johnson grass. At my home, 5 miles north east of Hamlin. The price, 80c per bushel.

McCAULEY MATTERS

By JOHN P. HARDESTY

Mrs. Cora Stephenson and daughter, Miss Ada of Mt. Pleasant and Mrs. Nellie Patterson, of Dallas, visited with their sister and aunt, Mrs. W. H. Stephenson for several days last week. Accompanied by Mrs. Stephenson they also visited the W. A. Stephenson and Mrs. G. C. Glass families at Abilene, Friday and Saturday.

Buford Jackson will appear on radio station KRBC next Saturday at 1:15 p. m.

Mr. and Mrs. Cecil Rider of Brownwood visited the W. W. Faulkenberry family and other relatives here last Sunday. Mrs. Rider is the former Eugenia Barnes of this community.

Betty Jo Abbott, student in McMurry College was a visitor with her parents, Mr. and Mrs. Ted Abbott last week-end.

The writer will preach at Swedonia next Sunday morning.

The Workers Conference of Fisher Baptist Association convenes at Roby, Monday.

Several McCauley people attended the B. T. U. convention at Roby last Friday night. The local Intermediate Union gave a program.

Miss Odell Abbott was returned to her home from the Stamford hospital last Sunday.

Mr. and Mrs. Lester Harris and children of Abilene visited Mrs. Harris' parents, Mr. and Mrs. W. W. Faulkenberry, Saturday and Sunday.

Following is the program for the Fisher County Associational Workers Conference, which is meeting with the Roby Baptist Church, Monday, Oct. 17, 1938:—
10:00, Devotional, C. W. Johnson, 10:20, The Individuality of Satan, Byron Bryant. 10:50, The place called Hell and who will be there, Emory Scott.—11:20, Sermon, L. L. Trott. —12:00 Lunch—1:30, Devotional, Ed Mitchell. 1:50, District Missions, B. N. Shepherd, 2:20, State Missions and our Fall Round Up, John P. Hardesty.—3:15, Sermon, E. E. Latta.

WISE CHAPEL NEWS

(By Catherine Drake)

Farmers are very busy with their cotton. The rain which came Monday was very much needed and we hope for more.

Miss Aurelia Mae Proffitt of Abilene spent Sunday with homefolks, Mr. and Mrs. A. P. Proffitt.

Mrs. Bill Patterson and family spent the week-end in Abilene.

Emil Ray Farmer of Abilene, spent the week-end with homefolks, Mr. and Mrs. Earn Jobe and family. Mr. Farmer is attending Hardin-Simmons University in Abilene.

Mrs. Rufus Herbst spent Monday night with her sister, Mrs. Carter in the Carlton community.

Several from this community attended the Fair in Abilene last week.

Mr. and Mrs. Joe Bonds and family spent Sunday with Miss Minnie Hayes of Flat Top.

Several from this community attended the Harley Sadler Show, Monday and Tuesday nights.

Grandpa Proffitt of Sherman is visiting his son, A. P. Proffitt and wife.

CARD OF THANKS

We desire to thank all our friends in Hamlin for their sympathy, kindness and every expression of love shown to us in the hours of our deepest sorrow.

MRS. DOCK HUMPHREY
J. E. and RAY.

Get your typing paper at the Herald Office.

Strength During MIDDLE LIFE

Strength is extra-important for women going through the change of life. Then the body needs the very best nourishment to fortify it against the changes that are taking place.

In such cases, Cardui has proved helpful to many women. It increases the appetite and aids digestion, favoring more complete transformation of food into living tissue, resulting in improved nutrition and building up and strengthening of the whole system.

C. D. Triplett, secretary of Anson Chamber of Commerce was a recent visitor in Hamlin.

ARE YOU PICKING YOUR FEED CROP, TOO?

You're MISSING a Big part of the value of your COTTON, unless you are picking the FEED CROP, too.

I Give You TEXAS

(By BOYCE HOUSE)

"Boost Sudan or move" is the slogan of the Sudan News.

A staff writer for one of the big dailies writes a column article to prove that the delegates at Beaumont didn't boo W. Lee O'Daniel; they merely made so much noise that he couldn't speak!

Back in Texas for a visit recently was Walter Holbrook, former Dallas and Fort Worth newspaperman, now with the New York Herald-Tribune. Holbrook is known to his friends as "Leo," because—as a movie press agent—he carried Leo, the Metro-Goldwyn-Mayer lion, around in an airplane. He . . . Holbrook, not the lion—is almost a double for Edward Everett Horton, the comedian.

Fort Worth has a tiny shop that sells nothing but trick goods. It's a practical joker's paradise.

There are sneezing powder, itch powder, rubber snakes, big spiders made of wire, books that explode when you open them, a flower for your lapel that shoots a stream of water into a friend's face, and stink bombs.

Also there are exploding matches, loaded cigars, loud-sounding handkerchiefs, matches that won't strike, car bombs that make a fellow think his auto is blowing up when he steps on the starter, and loose pieces of metal which, when dropped, make a noise like the crash of a plate-glass window.

What is there "practical" about a practical joke, anyway?

"Give me the man who sings at his work," wrote old Tom Carlyle. But suppose he doesn't have a good voice?

Preferable is the man who does whatever he is doing with all the zest at his command. For instance, at Beaumont there is a motorcycle officer who rides around making chalk marks on tires of automobiles so he can tell whether they park overtime. His motorcycle is shining; his uniform is natty and he has a gold emblem on his cap and another on his chest. The chalk with which he makes his mark is fastened on the end of a stick and he waves the stick as though it were a scepter and he were king. Here is a man who thoroughly enjoys his work.

He is quite different from my old friend, Joe, who used to be a linotype operator on the Ranger Times. Once, when asked, "What are you working for?" he answered immediately, "Fay day."

Sign on a store window in a large Texas city. "Blank's Political Sale! Must raise cash for taxes and penalties. Everything reduced except taxes and penalties."

Governor Allred has decided "at long last" to serve out his term in the office to which he asked the people to elect him and then will accept the federal judgeship.

Of course, he could have made that announcement away back last July but—if he had done so—the Lieutenant Governor (who was running for Attorney General) would have been deprived of reams of front-page publicity as he basked in the prospect of several months as chief executive with all the power and prestige that would mean. Certainly, nobody had any thought of aiding his candidacy in that way but it's funny how things will happen by accident and coincidence.

But, even with all that publicity and all that prospective glory, the people turned him down and elected Gerald Mann!

Mrs. Pauline Hubbard and little son, Billie Joe of Winters, came up Wednesday to visit her parents, Mr. and Mrs. John Hudson, just for the day.

Mrs. Olan Vaughan, of Escondido, California was a guest last week in the home of Mrs. Frank Lawlis.

ADS IN THE HAMLIN HERALD GETS EXCELLENT RESULTS

Advertising in the Hamlin Herald gets excellent results, says the Creomulsion Company, makers of Creomulsion, a prescription for Coughs, Colds and Bronchial Irritations.

A consistent user of newspaper space for many years, the Creomulsion Company has again started a nationwide advertising campaign on their product with regular insertions in the Hamlin Herald.

Creomulsion, recommended by thousands of physicians and druggists, is sold and guaranteed by all drug stores.

ALBANY 13 HAMLIN 0 IN FRIDAY'S GAME

Hamlin football fans and a nice crowd from Albany witnessed one of the best jam-up foot ball games on the Hamlin field last Friday that anyone could wish to see.

It was "doped out" before the game started that Albany had a vicious team and would "eat-up" the Pipers, and that was what they started in to do . . . to take home a lot of excess scores . . . but the fast, furious little Pipers put up the hottest fight any lion ever could stage and the Albany outfit was glad to get off with even 13.

They tell US that a fellow by the name of Whatley passed to one Williams for their first touchdown and then a kick chalked up the 7. Later on Albany's Palmer sprinted 60 yards for the 6.

Side-line impressions:

There was an unusually large number of Hamlin community fans out. Hamlin stores closed for the game, and there was plenty of noise all along . . . lots of rooting and blaring, catty remarks from the "was-beens" at the Albany gang . . . strong wires held back the crowds, while big armed policemen punched back those who crouched under the wire "hold-backs" . . . somebody said there was a lot of dust stirred up and whipped by a slight zephyr into the eyes, mouths, and hair of the Hamlin gang on the side-lines, then as the game neared a close, old Nature seemed to shift the dirt towards the Albany side . . . frequent dashes of gyp water into the eyes of the visitors and constant swabbing with towels kept the Albany fellows so they could see . . . the Pipers were accustomed to dust hardships and took it and loved it . . . they are tough and showed it . . . Albany's team, school, boosters, pep squad and band all taken together presented one of the best organized outfits that has visited Hamlin in a long time . . . Hamlin Pipers are a clean-playing bunch of fellows, taking it on the chin and giving all they got . . . not but one serious penalty, and we are informed it wasn't done for a purpose . . . Albany was penalized several times, and made quite a number of fumbles . . . the wind sometimes helped and at other times hindered . . . Albany had so many tactics to offer that it was hard to tell what they intended to do . . . Hamlin fans were well pleased with the distinct improvements our team showed, and even though they should not win a conference game this season, the public will be pleased with the decided improvement, all along the line. The Herald and Terrell's Grocery had advertised a bonus gift for touchdowns (Pipers) and others were ready to join us, but nobody gave up a dollar . . . although the Pipers came near a nice earned touchdown right on the tail-end of the time allowed, too narrow to count. So-o-o that is all.

How to Improve the Quality of Cotton

(By BENTLEY BAIZE,
Tuxedo, Texas.)

Better yields per acre and better quality of cotton means more profit for the farmer during the reduction of acres campaign.

Farmers are becoming more educated to the fact that they must raise the quality of cotton as well as the quantity to realize more profit from their cotton.

To obtain best results from your planting seed it is necessary to have it culled or graded in the best machine. When you plant seed that has been culled, cleaned and graded, you plant seed that is of a uniform size and weight, and under normal planting conditions should germinate and come to a good stand about the same time. If you go set a hen or incubator you would not select large, oversize or small eggs, but eggs of a uniform size. There is not a progressive farmer that will select seed corn to plant without removing the small shaped grains on the end of the ear or from the "nubbins." The same is true of cotton. In the end of each lock there is a small shaped seed or a large flat seed. In order to remove the inferior seed it is necessary to cull them out.

You may ask any seed breeder and he will tell you that only the well developed seed of any variety will produce true to type. The successful farmer will cull his planting seed every year so it will not run out.

Men have spent thousands of dollars and a greater part of their lives to build up the quality of cotton so that it would bring a better price on the world market. No man, with his scientific knowledge is skilled enough to produce a variety of cotton that won't develop a certain percent of premature seed, due to insects, soil and weather conditions and the many diseases that infest the cotton of today. If you allow inferior seed to remain in your planting seed, it is a waste of land, time and money. The next year it will produce still a greater percent of cull element, and by the third year you are ready to buy high priced seed.

There are from three to five bushels of faulty seed in a bale of cotton that will not come up. If planted it is enough to plant six or ten acres over your field, therefore, you see what you lose. If you plant

it in good culled seed, it should produce three to five bales of cotton. If you plant seed that has been culled every year, by the third year you have better seed than you did the first year, because it is acclimated to your locality. It should increase in purity for several years and not run out in two or three years.

My brothers and I have one of the very latest Leach Bros. air blast machines, as well as an earlier model. These machines remove dirt, trash or lint, burrs, and faulty seed, leaving only the well developed seed for planting purposes. The increase in lint is from 10 percent to 20 percent over seed that is not graded.

The wheat farmer finds that it pays well to grade his wheat before putting it on the market, because graded seed will make the best test and will bring top prices.

ABOUT WHEAT

FURTHER INFORMATION ON 1939 WHEAT ALLOTMENTS:

Any producer whose wheat allotment is greater than eight acres cannot have his allotment cancelled but must accept same unless some form is devised at a later date for giving up such allotment (such as Form SR-227 for cotton in 1938). In those cases in which a wheat allotment is less than eight acres, this type of farm is considered a non-allotment farm and the producer does not have to accept the allotment unless he elects to do so. In this case, his normal wheat acreage would not be deducted from the cropland in arriving at the 1939 tilled acres, but in the case where the allotment is more than eight

acres the normal wheat acreage will be deducted from the cropland in arriving at the 1939 tilled acreage and cotton allotment.

Any producer growing wheat in 1939 for the first time must make a request for this allotment at the County Association Office.

SALE OF 1938 COTTON PRODUCERS TRUST CERTIFICATE

Producers now holding Form No. C-5-1-1938 Cotton Producers' Participation Trust Certificate, may surrender this form to the Cotton Producers' Pool, Old Post Office Building, Washington, D. C., on or before December 31, 1938, and receive \$1.00 per 500 bale, or twenty one-hundredths cents per pound, for the cotton represented thereby. It will be necessary that you sign an application offering the sale of this participation Trust Certificate and

mail to the above address.

Thinking of Papers?

The Herald has some very attractive clubbing rates for Semi-Weeklies and Daily Papers—don't overlook the fact that the Herald is your home paper and has your personal interest at heart—Some people depend on "borrowing" the Herald, but that is only better than nothing—it costs so little and can mean so much to each one in the family—Read your home paper first and then a good daily or semi-weekly state paper. . . . The HERALD goes anywhere for a whole year for \$1.00

ELECTRIC KITCHEN

Among exhibits at the Central West Texas Fair in Haskell, Oct. 19-22, will be the huge all-electric kitchen trailer belonging to the West Texas Utilities Company, according to Ralph Duncan, secretary of the Haskell Chamber of Commerce.

Duncan said that H. C. King, local manager of the utilities company, had arranged to have the big blue and gold "home on wheels" in Haskell. It will provide loud speaking equipment for the entire fair. Five speakers are available and will be located so that music and announcements from the trailer can be heard anywhere on the grounds.

A feature of the trailer is the broadcasting studio for speeches and entertainment. Amateur contests are planned with local talent invited to perform over the public address system. Due to limited space in the studio, however, only acts up to and including four persons will be entertained. The utilities company will award prizes to winners of each night's contest. The audience will be invited to serve as judge.

The trailer has been used by the company as a model all-electric kitchen demonstration during the last year and has been inspected by nearly 150,000 persons. At McCamey this summer it was used as a broadcasting station for the famous Rattlesnake Derby. A sermon was broadcast through its facilities at Sonora and aspiring politicians used it at Quanah on the Fourth of July.

"It's been a sensation wherever shown," King declared. "Women have found it particularly interesting because it demonstrates how compact, clean and convenient the modern kitchen should be. The studio lounge are each eight by eight feet and the kitchen is eight by ten feet and contains every electric kitchen appliance on the market today."

Duncan predicted that the 1938 edition of the Central West Texas Fair "will be the greatest yet."

Carlton Parker came Saturday to visit in the home of Dr. and Mrs. L. S. Magee and to accompany his wife to their home in Littlefield. Mrs. Parker and son James, who was hurt several weeks ago in an auto accident had been here for the past two weeks so that Dr. Magee could care for James who after the injury had developed a bone infection. James is much improved but remained with his grandparents for more treatment.

Mr. and Mrs. Stubblefield, managers and operators of the railway express and Western Union, are taking their vacation through the south. They will go as far as Florida.

Garland Tumlin made a trip to Dallas this week to consult with specialists on his health. He is back at home and here is hoping he will soon be feeling himself again.

How Safe Are You at Home? Red Cross Warns of Hazards

1. Loose rug at top of stairs is a dangerous hazard.
2. Keep medicine cabinets locked or out of reach of youngsters.
3. Teach children not to put safety pins or other small objects in their mouths.
4. Good luck if you hang it up, but bad luck if you step on the nails in this horseshoe.

DURING the month of October, the American Red Cross will carry a safety message into ten million homes and farms throughout the nation, urging a check-up on accident hazards.

Do you know these hazards? How safe are you at home? Do you know that deaths from injuries on the farm are steadily increasing? What are the causes? These are a few of the questions the Home and Farm Accident Prevention Service of the Red Cross will send into homes, on an accident check list to be distributed through

Chapters, by millions of school children and members of the Junior Red Cross. And the answers are provided on the check list, too.

National attention was concentrated on the Home and Farm accident problem in 1935-36 by the Red Cross. In that year, 37,000 men, women and children lost their lives in home accidents, which were largely preventable. In 1937, this toll of life was reduced, and only 32,500 lives were sacrificed to carelessness. The spread of knowledge on hazards which were subject to correction was

everywhere credited with this cut in the death toll.

The 1937 deaths from home accidents were divided as follows, according to the National Safety Council: falls, 17,500; burns and explosions, 5,600; poisonings, 1,700; firearms, 800; mechanical suffocation, 1,000; poison gases, 1,100.

The Red Cross appeals to those in the home and on the farm to carefully check hazards which may exist inside and outside their houses, and perhaps save a life or prevent a life-long injury.

MORE DANGER OF

FIRE IN WINTER

A graph prepared by the National Board of Fire Underwriters shows that fire losses usually increase an alarming rate from September to December. "The reason for this is obvious," states the Board. "People start their stoves and furnaces as soon as cool weather arrives. In many cases neglecting to check over their heating plants. As a result, there is an epidemic of serious fires from defective equipment."

Soot-loaded chimneys are a major hazard. It is important to check on chimneys for cracks and holes and to clean the flues every year. Flue linings are essential for safety. Also, sagging, rusted smoke pipes cause trouble. Sparks may fly out and start a fire. Don't take this chance. Install a new pipe safe distance from combustibles.

Another cause is overheated stoves and furnaces, the result of poor maintenance and faulty operation. If you don't get as much warmth as you should, the heater is probably out of order. You should consult a heating expert. Never force the fire in cold weather. Keep your heating plant clean and in good repair. Use metal containers for ashes. For safety's sake check your heating equipment now, before real cold weather sets in.

Get your typing paper at the Herald Office.

TWO CITY FARMS

Have one choice "City farm"—9 rooms, 10 acres, lights, water, gas, everything—a dandy place for a family to make a living. Also 20 acres, six room house, just outside of city limits, lights, gas, water and everything needed—these "farms" are ideal for poultry, hogs, dairy etc. and can be had on good terms. Address or see Dr. L. P. McCrory, Hamlin, Texas.

VISITED HAMLIN HOSPITAL, CLINIC

While prowling around for something to write about this week, we did a visit to Hamlin Hospital and Clinic, not as a sick man, but just to see how the New Doctor and his staff were coming along. You see it is better to voluntarily visit a hospital than wait till you have got something cut off or out, while you are unconscious.

You will remember that the new owner of the hospital is Dr. U. J. Dowling, who has been doing a lot of changing around since he took charge, and right here let The Herald say that in this day and age even a small city without a modern hospital is far behind the times, and therefore everybody in this city has a good small hospital. Not that this is an unhealthy

community, for as a matter of fact Hamlin and its community is noted as a health resort. But we do need a place to carry the crippled, maimed, and a nice place in which pretty little babies can discover Texas. So that's what Hamlin has.

One thing noticeable on entering the hospital is that one sees the sign at the entrance to the lobby room, "Walk In" and above that door is the name Dr. U. J. Dowling, "Physician and Surgeon." Dr. Dowling has his laboratory first door to the right, and his private office third door to the right with an outside door to the south. The operating rooms are on the north side and at the east are the patients' private rooms, all arranged in such a manner that quietude and privacy is at hand all the time. Plans for more improvements are shaping and as time goes on every facility will be better for the public.

One very commendable thing noticeable in the new arrangements is that Dr. Dowling has provided two beds for emergency cases for Mexicans in the building formerly used as a servants quarters. . . just last week a tiny Mexican baby was born in that part of the hospital. It is so arranged that people like that can be free from embarrassment in coming in contact with people who are not of their kind and language. This outside feature was also used lately for caring for a colored woman who underwent an emergency operation. Hospitalization is a big thing and wherever possible and practical it will be done in Hamlin.

Another thing we learned in our visit: Dr. Dowling has arranged to care for his patients, to his capacity,

for any length of time. This means one can be cared for here in Hamlin with as good service as anywhere, within certain bounds. This means for nurse service, medical attention, meals, and room for the sick, all at a charge cheaper than could be had in a private home with the same safe service.

THE CRUCIAL ACCIDENT PERIOD

The automobile death and accident rate has shown a steady decline for a number of months. But now the crucial test period is at hand.

We are entering the most dangerous driving months. Fall brings rains, to be followed by the ice and snows of winter, all of which immeasurably increase driving hazards. Equally important, these seasons bring shorter days—and the accident rate at night, is much higher than in daylight.

The wise driver will prepare for this dangerous period. And preparation should take two forms. Put your car in first-class condition so far as brakes, lights, tires and steering are concerned. And put yourself in the proper mental condition for safe driving. Never forget that the human element is the responsible factor in the great majority of accidents. Before anyone can drive safely, he must think safely. He must know the hazards he faces, and be prepared for them. This "safety consciousness" is the first and most vital essential of accident prevention.

Remember that chance taking

isn't clever. Any fool can push the throttle to the floorboards, pass on hills and curves, disregard adverse weather conditions, and perform similar acts of idiotic recklessness. Caution is the product of intelligence. Drive safely all the time. And be especially careful in the fall and winter seasons. Then the accident rate will continue to go down.

HAMLIN LIONS WENT TO BIG SPRING

Wednesday night the Big Spring Lions were host to a group meeting of Lions and the Hamlin Lions and Lionesses took in the meeting in grand style. Information says that Dr. and Mrs. Joe McCrary headed the Hamlin visitors as chaperones and did a good job of it. In the crowd were such fellows as Howard Nall, Arice Jones, Arlie Cassle, James Dunlap, Henry Albritton, George P. Hudson and Kurt Schoemann.

The informant would not tell all that happened. It was a long trip and indications are they had a good time. Next meeting will be in Anson.

A Three Days' Cough Is Your Danger Signal

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germ-laden phlegm. Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

HASKELL MEN COMING, FRIDAY

A delegation of Haskell businessmen and their representatives will pay a brief visit in Hamlin Friday morning, advertising the Central West Texas Fair, which opens in Haskell, Wednesday, Oct. 19, continuing through Saturday, Oct. 22. Ralph E. Duncan, Haskell Chamber of Commerce Secretary, states that special courtesies will be extended all visitors at the Haskell Fair from Hamlin. Feature attractions during the four-days exposition this year will be Rodeo events each afternoon, Outdoor Pageant on night of the opening day, and a night football game between the Haskell Indians and Roby Lions.

Society and Clubs

October Marks Opening Of Hamlin Clubs

During the past week, Hamlin Club Women have been busily assembling in the various meetings which marked the beginning of the new club year.

Attractive Year Books have been

distributed to members of the Woman's Literary Club and the Schubert Club outlining the interesting programs to be studied for the coming months.

WOMAN'S LITERARY CLUB OPENS WITH TEA

The thirtieth session of the Woman's Literary Club was opened Friday afternoon at 3:00 o'clock in the home of Mrs. H. O. Cassle on Union Avenue. The traditional President's Day was observed in honor of the incoming president, Mrs. Loyd Sebastian.

The program was under the direction of Mrs. R. D. Moore, who introduced the new members and welcomed them into the club. Mrs. Earl Smith opened the program with a piano solo, "Traumerei," by Schumann. Mrs. Moore presented the new president, Mrs. Sebastian, who gave a splendid talk on Cooperation, emphasizing the fact that each member should feel a definite responsibility in the entire work of the club. As special goals she stressed the building of a club house, the sponsoring of a Junior club, the promotion of civic pride in our town and participation in Federation activities. Mrs. J. Henry Littleton, first vice-president, gave the response in a most pleasing way. A musical reading, "An Old Sweetheart of Mine," by Mrs. Hefflin Miller with Mrs. Smith at the piano concluded the program.

During the social hour Mrs. Cassle assisted by Mrs. Moore served a sandwich plate with an iced drink and sweets.

The entertaining rooms were attractively decorated with roses and fern, in which the club colors of pink and green were featured.

Friday, October 21, a luncheon will be held at 1:00 o'clock in the home of Mrs. Bowen Pope, with Mrs. Grover C. Johnson, of Wichita Falls, president of First District T. F. W. C. as honor guest.

DELIGHTFUL MEETING FOR BUSY BEE CLUB

The Busy Bee Quilting Club met with Mrs. Eral Ray, Oct. 5, 1938. There were twenty-four members and four visitors present. Three quilts were quilted and a very enjoyable day was spent.

If you don't have time to visit your neighbor meet her at the quilting club. Next meeting with Mrs. Ralph Riddle, Oct. 19.

Members present were Mmes. H. C. Harbor, Ira Treadwell, Elmer Joiner, Dave Herbst, J. F. Vaughan, Dave Harris, Joe Bond, Eral Ray, Ruby Weaver, Bert Fomby, J. H. Agnew Sr., Hugh Jones, John Taylor, Pat Beauchamp, W. B. Hampton, Woodrow Goodman, Jack Harley, Oscar Jenkins, W. L. Fletcher, Will Fomby, Ralph Riddle, Alton Hewett, Johnnie Agnew and Miss Bertie Agnew. Visitors were Mrs. J. P. McClung, Mrs. I. B. Ray, Mrs. Carl Reece and Miss Bendefield.

—Reporter.

THE SCHUBERT CLUB

The Schubert club had its annual opening luncheon at the Morgan Hotel, Saturday, October 8th, at 1:00 o'clock.

Twenty-four of the thirty members of the club, found their places at the two luncheon tables by artistic place cards, which marked their places. The tables were lovely with white linens and table centers of pink gladiolos and carnations. A delicious two course luncheon was served in the efficient manner that the hostess always does.

After the luncheon, the vice-president, Mrs. L. H. McBride, presided, and ask that the club Collect be read by the members. The new year books having been previously placed at each ones plate.

Greetings were given by each past president present, namely: Mmes. Q. Martin, R. B. Wiar, J. E. Moody, W. C. Russell and Joe McCrary.

Mrs. McBride then introduced our new president for the year 1938-39, Mrs. Gordon Bennett. The president's message was inspiring and interesting. She first reminded the guests that now the club has three charter members, Mrs. Rountree, Mrs. Q. Martin and Mrs. Russell of whom we should be appreciative and remindful of their service and loyalty through the past years. The theme of her message was based upon Purpose, Vision and Loyalty. She likened the life of the club to that of a child, leading up to it's adolescent age, the club being eleven years old this year. After such a beneficial message, the members felt inspired to go onward and try to mean more to the community each year than in former years.

The response was most graciously given by Mrs. McBride, after which the club adjourned to meet for its first study and choral meeting, Wednesday, October 12, at 3:00 o'clock in their club room in the Methodist church.

Those present were, Mmes. Henry Albritton, Gordon Bennett, Harold Bonner, Turner Beard, Fred Carpenter, Ira Clements, Arch Hackley, Otis Hopper, Mary Farrow, Willard Maberry, Q. Martin, L. H. McBride, Joe McCrary, J. E. Moody, Luther Rector, R. B. Wiar, W. C. Russell, Weldon Griggs and Misses Edwina Gilbert, Geneva Albritton, Maxine Brundage, Pauline Harrell and Alpha Moore.

—Reporter.

HONORED ON TENTH BIRTHDAY

Tuesday afternoon, October 11, at 4:30 o'clock Mrs. A. R. Elam entertained in her home with a party complimenting her son Dickie on his tenth birthday.

After an hour of games and play prizes were awarded to Naomi Ruth Young and Audrey Williams who

held a tie for the girls, and to Dan Holdridge for the boys.

The candle lighted cake beautifully decorated in floral design of yellow and green was cut and served with ice cream and punch. Favors were Hallowe'en horns and dainty baskets of candy.

Those present were Bagnal Thurman, Dorothy Helen McCray, Ida Frances Robertson, Kitty Burk, Anna Margaret McBride, Dora Joyce Culbertson, Mary Elizabeth Bowman, Jeanette Johnson, Naomi Ruth and Barbara Lou Young, Wanda Lane Jones, Audrey Williams, Clara Jean Nelson, Bernice Gillis, Charlene Scribner, Frances Brunson, Patsy Keene, Dorothy Jean Huling, Linda Hall Beard, Milton Johnson, John Carter, Tommy Adkins, Joe Dell Burk, Jack Dean, Jerry Wag-Dave Scott, Sammy Joe Vaughan goner, Billy Bynure Burns, Billy and Jerry Dan Crowley.

PARENT-TEACHER

ASSOCIATION IN

SOCIAL MEETING

The High School and Elementary Parent-Teacher Associations met Thursday evening, October 6, at the high school building in the first social meeting of the year.

For the first hour several interesting games were directed by W. C. Russell. The audience was led in singing America by Mrs. Mart Farrow with Mrs. W. C. Russell at the piano. Invocation was offered by I. R. Witt.

C. G. Green, superintendent of schools, introduced Mrs. Q. Martin, president of the Elementary Parent Teacher Association, and W. L. Fletcher, president of the High School Parent-Teacher Association, who both brought greetings from their organizations.

The program was in charge of G. R. Bennett, High School principal and chairman of the program committee. An accordion solo was played by Miss Lois Knight. The main speaker, H. S. Fatheree, assistant superintendent of Abilene Schools, spoke on "The Shifting of Responsibilities from the Home to the School and the Work of the P. T. A."

A sextet, directed by Miss Harrell and composed of Lois McCoy, Peggy Jane Teague, Pauline Shelton, Rosemary Carlton, Anita Anderson and Dorothy Fern Routh sang the Rosary. They were accompanied at the piano by Harold Fletcher. The benediction was given by Mr. Green.

Following the program refreshments were served the parents, teachers and Mr. and Mrs. Fatheree.

MRS. BULLARD HOSTESS

The Kongenial Kard Klub resumed their meetings Tuesday afternoon when Mrs. J. M. Bullard was hostess in her home with two tables of contract in play. High score for the club was made by Mrs. Vera Nobles and for the guests by Mrs. J. E. Cory. Salad, sandwiches, cake and coffee were served at the refreshment hour.

Those playing were Mmes. Frank Lawlis, Roy Holdridge, Ray Jones, Vera Nobles, J. E. Cory, Jodie Creel, D. O. Sauls and the hostess.

LUCILLE REAGAN CIRCLE HOLDS SOCIAL MEETING

The Lucille Reagan Circle of the Baptist Women's Missionary Society met in the home of Mrs. M. Y. Wilson, Monday afternoon with Mrs. J. D. Burk and Mrs. G. P. Odum as hostesses.

Preceding the business session a devotional was given by Mrs. Wilson. Following the games a plate holding salad, sandwiches and a sweet was served with coffee.

HOMEMAKERS CLASS IN SOCIAL MEETING

Mrs. M. Y. Wilson and Mrs. W. R. Wilkerson were joint hostesses, Tuesday afternoon when they entertained the Homemakers Class of the First Baptist Church in the home of Mrs. Wilson.

Games were enjoyed after which a short business session was held. A salad plate with sandwiches and iced tea was served.

Mrs. Lennie Smith spent Thursday with her sister, Mrs. Roy Bruner.

"MY SKIN WAS FULL OF PIMPLES AND BLEMISHES FROM CONSTIPATION

says Verna Schlepp: "Since using Adlerika the pimples are gone. My skin is smooth and glows with health." Adlerika washes BOTH bowels, and relieves constipation that so often aggravates a bad complexion.

PLASTERCO H. D. CLUB MEETS WITH MRS. GRAHAM

Every flower arrangement is in a real sense a picture, stated Jewell Hipp, assistant H. D. Agent, to the Plasterco club, when she met with them in the home of Mrs. Cyril Graham. The flowers themselves are merely the material with which the

designer works, explained Miss Hipp. Even the very common flowers and grasses were artistically arranged in bowls and vases, so as to be attractive. The following were present: Mmes. Rufus Fancher, C. R. Williams, Glenn Bond, Cyril Graham, John Doby, Wood Cowan, Ray Maberry, O. R. Criswell and Miss Jewell Hipp.
